Questions provided by Kurilpa Futures to each candidate

- How would you support the Kurilpa community to adapt to the impacts of global warming including significantly increasing the availability, and quality of, greenspace in the Kurilpa Peninsular?
- What changes would you make to the city plan, and to Council's approach to planning, to ensure that development in the Kurilpa Peninsula is more sustainable, equitable (including affordable housing) and retains the cohesiveness and quality of life of the existing community?
- How would you improve access to high quality public transport and work with the community to transform 4101 into Australia's most walkable, and bicycle friendly, postcode?
